Please bring this completed form to A203 PDB. If this is your first semester registering for Honors in the Major, you also need to show your completed and signed application for the Honors in the Major Program as well as your SASS (from the Advising Office) showing your Psychology GPA. After you bring the relevant forms to A203, they will give you a course reference number that is required **FOR YOU** to complete registration or drop/add.

I have completed this form and have read the above statement. I understand that I am responsible for registering for Honors thesis hours for each term that I work on the Honors thesis.
